Bachelor of Science in Aviation

Expected 12/27

Liberty University,

Lynchburg, VA

PROFESSIONAL SUMMARY //

Objective: To continue developing as a professional pilot through disciplined training, strong decision-making, and a safety-first approach to every flight.

Summary: Safety-focused Certified Flight Instructor with Commercial ASEL and AMEL privileges, an Instrument Airplane Rating, and 426.0 hours of flight experience. Experienced in cross-country, instrument, complex, high-performance, and multi-engine operations.

PROFESSIONAL EXPERIENCE //

06/26 - Today **America West Flight School** // Hurricane, UT

Certified Flight Instructor

Provide individualized flight and ground instruction in a Part 61 training environment. Develop lesson plans that reinforce preflight planning, aircraft systems, maneuvers, cross-country operations, instrument procedures, and practical-test preparation. Emphasize safety, sound aeronautical decision-making, FAA compliance, and professional habits that help students build confidence and proficiency.
